A review of the proposed Bills to amend the existing Occupational Safety and Health Act of 1970 failed to reveal anything of significance which would adversely impact on Office of Logistics (OL's) activities or mission objective. We did note with interest, however, that Section 7903 in H.R. 5642 would allow Office of Personnel Management free access to Agency facilities for inspection and investigation purposes

If these Bills ever become scheduled for Committee action, the Agency may want to get an exception to the inspections of Section 7903 by justification of national defense, as provided for in Section 7909.

/s/ James H. McDonald
